About the Seminar

The essence of leadership consists in superior qualities and powers not in authority. These powers enable leaders to influence people not govern them. Authority is finite, it has limits imposed by organizational status and jurisdiction where as its influence is infinite. Great leaders, including great teachers exert positive influence on peoples' lives across time and space. The proof of leadership is in follower ship. Only followers give legitimacy to leadership .if you ask the subordinates what they want in a leader and they probably lists three things namely direction or vision, trustworthiness and optimism. Good leaders make people hopeful and transform the vision in action and this is a lead role of the Academic Heads.
